Strawberry Milk:

[Kim]

Just her day (yesterday?) action set the girl to the
Attraction

Is a natural refraction, yr affection

Say it ain't so, you got the dough

You've got the looks, I've got the hooks

It's the difference between will and yr passion

In the future, it'll never happen

I'll never die, you'll never lie

Oh my my, oh my my

Chorus:

[Strawberry milk was a fantasy

Livin' at the top of the open tree

Nobody around just you and me

Looking as far as we could be]

Woke up next day, the attraction was armed

Said, "I'm not a feminist I'm a boy who's been wrong"

"Partly in such," he said with a flare,

"I'm gonna sit here, and watch you bare...

I must be fair, I'm so complex, do nothing but weep,

And shuffle my feet, until you've fallen in love with my

Cheek"

Turned down his heel and ambled away

Chorus
