Though the shades are pinned down, I still can see
inside your head. Your eyes, a proper end of darkness,
still you're my day from left alive.

So say that you never had the chance to say goodbye.
Please stay with me. Go on and stay just one more
night, the sky has never been so bright. Please stay
with me 'cause I'm left alone.

So paint me a picture of the last year, kiss me one time
before you leave. And all right, but you don't have to
wait for me. Don't wait, please wait.

So say that you never had the chance to say goodbye.
Please stay with me. Go on and stay just one more
night, the sky has never been so bright. Please stay
with me 'cause I'm left alone.

Say "I miss you." Stay, I need you. Sorry that I was born.
[x 3]

So say that you never had the chance to say goodbye.
Please stay with me. Go on and stay one more night, I
ask you, as I fall asleep tonight. Please stay with me
'cause I'm left alone.
