"A Fallen Star"

A star fell from heaven, right into my arms
The brightest star I know I've ever seen
Then I found out that it
Was only you with all your charms
Who came into my life to fill a dream

A fallen star (a fallen star) that's what you are
The twinkle in your eye came from the sky
You must have strayed from the Milky Way
A fallen star that's what you are

A fallen star (a fallen star) that's what you are
The twinkle in your eye came from the sky
You must have strayed from the Milky Way
A fallen star that's what you are
