

## The Hint "Hope Street"

Visit "[Hope Street](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Who will see the light?  
the lights burn brightly on Hope Street  
dreamers dream tonight  
we're living alone on Hope Street

i want you to love me / the lights burn bright  
i need you to change / the lights burn bright  
i want you to show me / the lights burn bright  
on Hope Street, on Hope Street

raise the banner high  
we're living a lie on Hope Street  
everybody's searching the world tonight  
and there's only one hope, one true light

i wanted something so hard to find  
if i can't have it, i'll lose my mind

i want you to love me / the lights burn bright  
i need you to change  
everybody's searching the world tonight  
and there's only one hope, one true light

on Hope Street, on Hope Street
