The price to come down the tracks realization  
Will leave you numb

The price to come down the tracks realization  
Will leave you numb

The price to come down the tracks realization  
Will leave you numb

The price to come down the tracks realization  
Will leave you numb

She's gotta pray for the life salvation we didnt  
know  
Just as she scared

She's gotta pray for the life salvation we didnt  
know  
Just as she scared

Its been preached from the beginning  
Its hard sometimes to let it sink in  
You try to be much more and I'll try not to forget

Take it or throw it all away now, Baby  
'Cause no ones gotta save you  
Say you needed this because  
Say you need it all because

The confidence valed by barness and  
Hatred will leave you on

The price to come down the tracks realization  
Will leave you numb  
Its been preached from the beginning  
Its hard sometimes to let it sink in  
You try to be much more and I'll try not to forget

Take it or throw it all away now, Baby  
'Cause no ones gotta save you  
Say you needed this because  
Say you need it all because

Take it or throw it all away now, Baby  
'Cause no one's gotta save you  
Say you needed this because  
Say you need it all because

It's time to see  
It's time you know you're all alone  
Well then now you know  
Well then now you know

Take it or throw it all away now, Baby  
'Cause no one's gotta save you  
Say you needed this because  
Say you need it all because

Take it or throw it all away now, Baby  
'Cause no one's gotta save you  
Say you needed this because  
Say you need it all because

You write it down, you run away

You write it down, you run away
