Well Im standin' here singin'
and a little lady's caught my eye,
Got me actin' all nervous and
I can't work out why,
'Cause she's got the kinda looks,
even make a blind man cry,

[chorus]

Hey you! Yep I'm talkin to you,
Hey you! Don't go makin' me blue,
Hey you! There's so much we can do,
Rock with me baby, all night through.

Well I hope that little lady's gonna
come and take a chance with me,
Ask her out on a date,
even go some place for tea,
Better bring no other man,
there ain't no room for three,

[chorus]

Well I may be poor but I can pay my own way,
I'll even pay yours if I've had a good day
So don't go worryin' 'bout a thing that I do,
'Cause I'll be good to you!

[chorus]

No I hope that little lady ain't
gettin' up and makin' to go,
Better hang on in here until
the end of my show,
'Cause there's so many things
I want that sweetie to know!

[chorus x2]
