i've played with love and been burned every
time. and that's the way it goes
as i lean close to you. it's reaching out that
rhythm makes me sick. with head in hands and
hands on hips. you'll never
know what i need
cause no words pass
through tightened lips
i don't ever make it easy to
lay between my hips

it's just a small thing
calling down the rain
i've tried to make it easy
to live inside my pain
i scoff at love and then sweat through the night
'cause i like what i see
i love the laugh torn from your side
pressing on top of me

i try to make it easy
to live inside my brain
it's just a small thing
calling down the rain
i've tried to make it easy
to live inside my pain
it's just the small
things that bring
you to mind. a
fractured smile and
butterfly kiss. so kiss
me now and kiss
me sweet. i've never
know it to be quite
like this. i try to
make it easy to live
inside your kiss
