Dear Love, It's been too long
Since I've seen you face
Since I've touched your hand
And dear love, In case you didn't know
I've been lost
Without you here
Without you here
I am a sinking ship
I am a broken sail
Without you here I just keep going Down down down
But I'll take this loss it's not for keeps
As I sing your name on every street
I'll be, I'll be home soon I'm just tired of thinking
wishfully
So next time I am taking you with me
With me You should've seen the sky Last night
The sunset view faded back to blue
But it just didn't look the same without You
I am a sinking ship
I am a broken sail
Without you here
I just keep going Down Down Down
But I'll take this loss it's not for keeps
As I sing your name on every street I'll be, I'll be home
soon
I'm just tired of thinking wishfully So next time I am
taking you with me
With me Mayday mayday mayday
I am going down Jump off jump off jump off Or I'm
gonna drown
