Let me say it to you straight and plain
I'm just a piece in your endless lonely game
Your changing mind like a melody
And I don't need, I don't need a reason

Take what's yours you took what's mine
And we lived it up on borrowed time
Take what's yours you took what's mine
And we lived it up

We will be singing when it's over
We will be singing Woah! Woah!
We will be singing when it's over
We will be singing Woah! Woah!

I never wanted the conventional
But you should know you don't make no sense at all
Your taking sides with the enemy
And you told me you had good intentions

Take what's yours you took what's mine
And we lived it up on borrowed time
Take what's yours you took what's mine
And we lived it up

We will be singing when it's over
We will be singing Woah! Woah!
We will be singing when it's over
We will be singing Woah! Woah!

Sing for the urgency Woah! Woah!
Sing for the memories Woah! Woah!

We will be singing when it's over
We will be singing when it's over
We will be singing when it's over
We will be singing when it's over
