It's true what they say I did  
It's true what you think you heard  
But I'm not ashamed of it  
I got no alibi for their words  
I know that I did the crimes  
Yes, I'm guilty and I am crucified  
And I know you'll be judging me  
But there's nothing here to hide

Because I've seen that sunrise a thousand times  
I must confess, not always sober, I'm  
not going to pretend that I didn't try it all  
It ain't no cover up

I guess I lived like there's no tomorrow  
The nights are flashing by in front of me  
You know I lived like there's no tomorrow  
Cause in the blackest night there'll always be

A ray in the darkness, I'm radioactive  
Whenever I'm fading, I glow in the black lights  
My heart is igniting, it's burning inside me  
I've learned from the black nights  
To glow in the black lights

It's true as they say it is  
No, I can't feel no remorse  
'Cause an angel would fall from this  
No denying anymore

Because I've seen that sunrise a thousand times  
I must confess, not always sober, I'm  
not going to pretend that I didn't try it all.  
It ain't no cover up

I glow in the black lights

I glow in the black lights

A ray in the darkness, I'm radioactive  
Whenever I'm fading, I glow in the black lights  
My heart is igniting, it's burning inside me  
I've learned from the black nights

I guess I lived like there's no tomorrow  
The nights are flashing by in front of me  
You know I lived like there's no tomorrow  
Cause in the blackest night there'll always be

A ray in the darkness, I'm radioactive  
Whenever I'm fading, I glow in the black lights  
My heart is igniting, it's burning inside me  
I've learned from the black nights,  
To glow in the black lights  
I glow in the black lights  
I glow in the black lights

A ray in the darkness, I'm radioactive  
Whenever I'm fading, I glow in the black lights  
My heart is igniting, it's burning inside me  
I've learned from the black nights,  
To glow in the black lights
