Can you see the children running around
I'm imagining the house that we're gonna build
Damn nights carry out on a cloud
Red wine in a glas on the top hills

I'll tell it like it is
Cause I don't wanna waste another minute
Let me put it down like this
I've been afraid to say how deep I mean it

Cause you give me (joy, joy, joy)
And you feel me (happy, happy, happy)
When you give me (joy, joy, joy)
So keep on giving it (happy, happy, happy)

I'm in love, love, love
I'm in love, love, love
I'm in love, love, love
I'm in love

Going low when we drive in your car
I know you like it when it's hot with the top down
Crazy fantasies are not too hot
That's the picture of the future in my heart

I'll tell it like it is
Cause I don't wanna waste another minute
Let me put it down like this
I've been afraid to say how deep I mean it

Cause you give me (joy, joy, joy)
And you feel me (happy, happy, happy)
When you give me (joy, joy, joy)
So keep on giving it (happy, happy, happy)

I'm in love, love, love
I'm in love, love, love
I'm in love, love, love
I'm in love

Happ, happ, happy
Joy, joy, joy

I don't wanna run
Cause you make me come of
Everytime we touch
Did I say too much
They way you make me sway
You're my greatest fate
Want you night and day
For you I'm stepping up

I don't wanna run
Cause you make me come of
Everytime we touch
Did I say too much
They way you make me sway
You're my greatest fate
Want you night and day

Cause you give me (joy, joy, joy)
And you feel me (happy, happy, happy)
When you give me (joy, joy, joy)
So keep on giving it (happy, happy, happy)

I'm in love, love, love
I'm in love, love, love
I'm in love, love, love
I'm in love
