We see the same moon  
I can feel the way you feel and the way you're thinking  
I know you miss me  
Cause' I know you count the hours like the way I do  
So can you hear me  
And when I'm calling out your name, I'm so far away  
We share the same dream  
And us two in this together, keeping us apart

Though the world has come between us  
You can look and you will find me here  
'Cause I'll be standing right beside you  
It took my whole life to find you, find you

I'm waiting  
I'm waiting  
I'm waiting

Been waiting my, my, my, my, my  
Whole life for you, you, you, you, you, you  
I'm waiting

We see the same moon  
Like we're together when, when I close my eyes  
I reach your mind now  
In this lonely bed I miss your fingers on my skin  
And through my window  
I see a shadow with your loving, kissing me good night  
We share the same dream  
And us two in this together, keeping us apart

Though the world has come between us  
You can look and you will find me here  
'Cause I'll be standing right beside you  
It took my whole life to find you, find you

I'm waiting

Been waiting my, my, my, my, my  
Whole life for you, you, you, you, you, you

Been waiting my, my, my, my, my  
Whole life for you, you, you, you, you, you

I'm waiting

I'm waiting

'Cause I've been waiting-ting-ting-ting-ting-ting-ting-ting-ting-ting-ting-ting-ting-ting-ting-ting

I'm waiting

Been waiting my, my, my, my, my  
Whole life for you, you, you, you, you, you

For you, for your love

Been waiting my, my, my, my, my  
Whole life for you, you, you, you, you, you

I'm waiting
