It's such a long way down
Down from the high
You're like the lonely sound
I can't deny
I didn't know I was feeling best
'Til you had me falling
It's such a long way down
Down from the high

You're running through my veins
Like fire, I dance in the crowd
Like my heart, will never beat without you now
Now you're gone, can anybody tell me how
To break, to break, to break, to break, to break through

Habit of you
Cause now I'm feeling for you
You left me longing for you
I'm down there begging for you
Cause I can't give you up
Junkie, I'm like a junkie

Cause now I'm feeling for you
I'm strong now and you left
You left me longing for you
Like I can't get enough
I'm down there begging for you
Cause I can't give you up
Junkie, I'm like a junkie
Junkie, I'm like a junkie
Junkie, junkie, I'm like a junkie

There's nothing I want more
Than to leave you behind
If I could close this door

And watch us die

You're running through my veins
Like fire, I dance in the crowd
Like my heart, can never beat without you now
Now you're gone, can anybody tell me how
To break, to break, to break, to break through

Habit of you

Cause now I'm feeling for you
I'm strong now and you left
You left me longing for you
Like I can't get enough
I'm down there begging for you
Cause I can't give you up
Junkie, I'm like a junkie

Cause now I'm feeling for you
I'm strong now and you left
You left me longing for you
Like I can't get enough
I'm down there begging for you
Cause I can't give you up
Junkie, I'm like a junkie
Junkie, I'm like a junkie
Junkie, junkie, I'm like a junkie
