### "Overdose"

Visit "[Overdose](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'm dead inside and out, I don't know why I care  
My heart beat silence sounds, the music's loud in the air  
And I can't find a way around,  
'cause of what you've been giving me  
And I tried every drug I found  
but there's nothing like the one  
you've been giving me, giving me, giving me

I know I might be crazy  
Yes I know this shit is fading

I know I might be crazy  
But I would rather go through my life  
Having met you  
Yes, I know this shit is fading  
But I would rather go through my life  
Getting high on you

I just wanna OD on you  
I just wanna OD on you,  
Baby can I OD on you  
I just wanna OD on you

I feel like going down then baby you come near  
I feel like I could drown 'cause your loving ain't here  
No I can't find a way around  
'cause of what you've been giving me  
And I tried every drug I found  
but there's nothing like the one  
you've been giving me, giving me, giving me

I know I might be crazy  
But I would rather go through my life  
Having met you  
Yes, I know this shit is fading  
But I would rather go through my life

Getting high on you

I just wanna OD on you  
I just wanna OD on you,  
Baby can I OD on you  
I just wanna OD on you

I know I might be crazy  
Yes I know this shit is fading

I know I might be crazy  
But I would rather go through my life  
Having met you  
Yes, I know this shit is fading  
But I would rather go through my life  
Getting high on you

I just wanna OD on you  
I just wanna OD on you,  
Baby can I OD on you  
I just wanna OD on you  
I just wanna
