She's been out all night drinking with her friends  
And you've been hanging out all night tasting me again

I've heard through the -

She'd probably do the same

She's with another man, she's with another man

Maybe we should be the first to open up about it  
Maybe we should be the first to ask her if she wants  
Maybe we should be first to show her how it could be  
Maybe we should be the first to ask her if she's on  
'Cause maybe we could drink some, yeah  
Then we could have a threesome, yeah

I've been all night just imagining  
What it feels like kissing on your girlfriend  
I heard it through the -, she likes the kind of woman I am  
Yes, I heard it through the -, I've heard through the -

Maybe we should be the first to open up about it, yeah  
Maybe we should be the first to ask her if she wants  
Maybe we should be first to show her how it could be, yeah  
Maybe we should be the first to ask her if she's on  
'Cause maybe we could drink some, yeah  
Then we could have a threesome, yeah yeah yeah

We could do it, do it  
All night do it, do it  
Me and her and you and you  
Drink a little to it, to it

We could do it, do it  
All night do it, do it  
Me and her and you and you  
Drink a little to it, to it

We could do it, do it

All night do it, do it  
Me and her and you and you  
Drink a little to it, to it

We could do it, do it  
All night do it, do it  
Me and her and you and you  
Drink a little to it, to it

'Cause maybe we could drink some, yeah yeah yeah  
Then we could have a threesome, yeah yeah yeah yeah
