Hey this babys gonna get me high  
High on love all night  
Hey this babys gonna get me down  
Down on luck and outta town  
Oh no she left a scar, I never thought she'd go that far.  
Oh no she left her bra, her boyfriend found it in my car  
Times we'd make the bedroom shake,  
Had the pillow cover face noises  
Louder than an army, lets not finish in  
A hurry her body shaking

Whoa Yeah!  
Now we got the party started  
Whoa Yeah!  
Got my babys motor running  
Whoa Yeah!  
Welcome to my cocaine dance party  
Watch the room fill with snow  
Did you powder your nose  
A lot of luck when you were sixteen  
Spent it on your knees
