It's party time and we're young and reckless  
We don't need anyone to protect us  
Hey baby got the place I got the time  
We're getting ready to start our night  
When we go out it's fuckn' contagious  
We're guaranteed to  
Start the night off and we're already dancing  
Haven't left and it's already messy  
And could you be, the one for me

It's party time and we're young and reckless  
We don't need anyone to protect us  
Young! Loud! Fun!  
We! Want! Some!  
When the night is said and done  
A mattress on the floor means cum  
Together with me now you sweet thing  
You'll never get the best of me

I think you're oh so beautiful  
So come and dance with me  
I wanna do more than dancing  
Just you wait and see  
I'll unwrap you like a present  
To see what's underneath  
Like a kid on Christmas morning  
I'll take a sneak peek
