Keep a secret journal on the deviant young  
Report and reveal, uncover and unmask  
Street corner secret agents, master spy  
Middleman informers for the secret police

The same old doctrines must be taught as true  
Divide and disrupt prevent the young from thinking  
A 'liberal vision' designed by the ruling few

Register the kids who do not follow in line  
Infiltrate and monitor their assembly places  
Confiscate their music, clothes and magazines  
Their culture is a weapon against society

The same old doctrines must be taught as true  
Divide and disrupt prevent the young from thinking  
A 'liberal vision' designed by the ruling few

The same old doctrines must be taught as true

The same old doctrines must be taught as true  
Divide and disrupt prevent the young from thinking  
A 'liberal vision' designed by the ruling few
