Darling, since we been together

You know, you've changed me

I mean, you've really rearranged me

Just as long as you need me

Just as long as you want me

I'll be around

Just as long as you need me

Just as long as you want me

I'll be somewhere around

Oh, baby, oh, baby

Girl, I think about

All the times I've been alone

It's like being shut out

From the world with

No one to call my own

And like sunshine

You came into my heart

And gave my life new meaning

Girl, you gave me a

Brand new start, baby

Just as long as you need me

Just as long as you want me
I'll be around, yes, I will
Just as long as you need me
Just as long as you want me
I'll be somewhere around
Girl, I never dreamed
This kind of love could exist
You restored my faith in love
With just a simple kiss
You created laughter from
Two lips that wouldn't smile
And when you shared
Your understanding
You changed my whole lifestyle
Just as long as you need me
Just as long as you want me
I'll be around
Just as long as you need me
Just as long as you want me
I'll be somewhere around
