I wonder why the hell I stay in this town
Ain't much to do when the sun goes down
I think about what I'll do when I'm with you

Still don't know why you went away
When black and white turns into gray
Life was cold but I was warm when I kissed you

When I am with you I feel warm inside
When I am with you time and space divide
When I am with you I am so alive
When I am with you

And I don't know how I'm gonna live this way
Eternity burned out that day
And I don't know how I'm gonna spend my life without
you

And the church bells are ringing all across the world
And prophecies go unfulfilled
Cause they always told me I would spend my life with
you
I won't say adieu

How much more time will I have to wait
You left me in a restless state
I walk around like I'm in a trance till I'm with you

I wonder where on Earth you could have gone
Feel like a siren that somebody left on
Screaming out in the night that I miss you

When I am with you my heart pounds like rain
When I am with you I am immune to pain
When I am with you I feel no restrain
When I am with you

And I don't know how I'm gonna live this way
Eternity burned out that day
And I don't know how I'm gonna spend my life without
you

And the church bells are ringing all across the world
And prophecies go unfulfilled
Cause they always told me I would spend my life with
you
I won't say adieu

And I don't know how I'm gonna live this way
Eternity burned out that day
And I don't know how I'm gonna spend my life without
you

And the church bells are ringing all across the world
And prophecies go unfulfilled
Cause they always told me I would spend my life with
you
I won't say adieu

Adieu
