My Father is the King but I already know this  
The light of my life, to Him my eyes focus  
Hung on the cross for the world to see  
I've got the light of the world burnin' inside of me  
He let the lame to walk and the blind to see  
A little fish and some bread, a million people to feed  
I said, three days later He arose from the ground  
You can knock us over but we won't stay down  
We're like weebles, we wobble, but we won't stay down  
You better listen up good, we ain't foolin' around  
We're like weebles, we wobble, but we won't stay down  
I once was lost but now I'm found  
We're like weebles, we wobble, but we won't stay down  
You better listen up good, we ain't foolin' around  
We're like weebles, we wobble, but we won't stay down  
I'm sick and tired of getting pushed around  
He's the miracle Worker, the great I Am  
I said, He's known for many generations throughout  
the land  
I said, He talked to people about what was right  
To save my soul, His life was sacrificed  
I said, He saved my soul from a darkened life's end  
I said, always with me He defines a true friend  
I say, He opened His hands and let love run free  
I stood in the Son and let Him pour on me  
We're like weebles, we wobble, but we don't stay down  
You better listen up good, we ain't foolin' around  
We're like weebles, we wobble, but we don't stay down  
I once was lost but now I'm found  
We're like weebles, we wobble, but we don't stay down  
You better listen up good, we ain't foolin' around  
We're like weebles, we wobble, but we don't stay down  
I'm sick and tired of getting pushed around
