### "Fly Away From Pain"

I wish I could fly away  
From this world today  
Nobody knows me, Nobody needs me  
Why am I here when everyone hate me  
I wish that I could fly away  
I wish I would not be here to day  
I want to go home  
Where I belong  
Where all the good people stay  
I'm flying with my angel  
Away from worlds danger  
Fly away from pain  
I can't take any more shame  
I don't believe that you know it  
How to be fated, so very hated  
I can't sleep at night  
Because I never feel right
