I know that you get tired of traveling this lonesome road alone. You tried with all your might to do right, but it seems like it's all wrong. Don't lose heart, I've been with you from the start.

Chorus...

If you're tired and weak, I will help you stand. If you'll trust in me, I will be your friend. To the end.

Seems like there's always something or someone to make you stumble on your way. But don't look down look up in the dark until you see the light of day. Have no fear, I will always be right here.

Repeat chorus

Oooo. Let me hear you call. (Won't you let me hear you call). Oooo. I won't let you fall. (I won't let you, I won't let you fall.)

Repeat chorus.
