In deh, in deh all o' you in deh, in deh already  
In deh, in deh long time, you in deh, oh yeah

I sing and shout of the glory of Jah Rastafari  
When you tell them of the Almighty  
Some of them would want to try stay one side and fight  
me  
But the hotter get the battle, it's the sweeter Jah victory  
Don't fight against your culture  
History can tell of Jah mystery  
So you in deh, you in deh, all o' you in deh  
How you a go get out  
In deh, in deh long time, you in deh

Dem hiding from the things they did in the dark  
But it no make sense you gwane like  
'Cause if knife would only speak, I know it would attack  
Say when lamp out, finger walk  
And the rock shall be upon their shoulder  
Yes it all shall be rest on their shoulder  
In deh, in deh, all o' you in deh - in deh already  
In deh, in deh long time, you in deh

Dem hidin' from the things they did in the dark  
But it no make sense you gwane like  
'Cause if knife would only speak, I know it would attack  
Say when lamp out, finger walk  
Dem say, hawk dem near - chicken merry  
This is no if, nor but or maybe  
You in deh, in deh, all o' you in deh -  
In deh already. ...
