Some say they are free like a bird in the tree  
Some say they are freer than ever can be  
But the one cannot be free until he's free from mental  
slavery  
Free from moral destruction and this cultural  
exploitation

Most people don't really understand why the  
Almighty created man  
Man wasn't born to see destruction, but through this  
Physical immoral pollution  
Everyday it's a physical immoral pollution

Everyday it's all I see and I can't stand it no longer  
Physically, morally, oh

He who knows and pretend that he don't know  
Jah is the one who was rejected and despised  
The peace may break away, but the truth must stand  
It's only Jah can stop this evolution  
Can't stand this physical immoral pollution  
Everyday it's a physical immoral pollution

Don't get me wrong, don't get me wrong  
Don't get me wrong, don't get me wrong  
When I say, it's a physical immoral pollution  
Everyday it's a physical immoral pollution....
