Jesus is there through it all

When you're tired of crying, tired of trying
Feeling Empty and tempted to fall
There is one there beside you
to comfort and guide you
Jesus is there through it all

Chorus

He is there when your load is too heavy to bear
He is there
Through it all
And He knows when you need Him
Before you even call
Jesus is there through it all

When blessings abound or when burdens surround you
When you have no defenses at all
He will hold you so you can't see the battle with the
enemy
He is faithful He is there through it all

Chorus

With downcast eyes you may only find
one set of footprints in the hot desert sand
but lift your head high and you'll find in these times
we are cradled in the palm of his hands

He's a refuge, strong tower, no matter the hour
Jesus is there through it all
Jesus is there through it all
