### **"Walk On"**

Visit "[Walk On](#)" on [MotoLyrics.com](https://MotoLyrics.com)

walk on brother, walk on sister, walk on children, you  
gotta roll with the rock  
through the shifting sand, walk on through the valley,  
walk on up the mountain  
walk on through the wilderness if you ever gonna make  
it to the promise land  
walk on

When you feel temptations tugging at you heels (walk  
on)  
when devils at the crossroad trying make a deal (walk  
on)  
don't stray to the left don't veer to the right(walk on)  
cause straight is the way that leads to the light

If you weary from the weight of the world on your back  
(walk on)  
if you stumble get up don't worry bout that (walk on)  
keep your eyes on the narrow road (walk on)  
some day its gonna turn into a street of gold

were all walking the same road were just wearing  
different shoes  
you better lay down that heavy load  
you gotta keep on walking or the devils gonna get you  
(chours 2x)  
walk on  
walk on
