In deh, in deh all o' you in deh, in deh already
In deh, in deh long time, you in deh, oh yeah

I sing and shout of the glory of Jah Rastafari
When you tell them of the Almighty
Some of them would want to try stay one side and fight
me
But the hotter get the battle, it's the sweeter Jah victory
Don't fight against your culture
History can tell of Jah mystery
So you in deh, you in deh, all o' you in deh
How you a go get out
In deh, in deh long time, you in deh

Dem hiding from the things they did in the dark
But it no make sense you gwane like
'Cause if knife would only speak, I know it would attack
Say when lamp out, finger walk
And the rock shall be upon their shoulder
Yes it all shall be rest on their shoulder
In deh, in deh, all o' you in deh - in deh already
In deh, in deh long time, you in deh

Dem hidin' from the things they did in the dark
But it no make sense you gwane like
'Cause if knife would only speak, I know it would attack
Say when lamp out, finger walk
Dem say, hawk dem near - chicken merry
This is no if, nor but or maybe
You in deh, in deh, all o' you in deh -
In deh already. ...
