I've got to carry on, I've got to carry on
Things that is left undone, yeah oh yeah

Every heart feels it's own vibration
Every tongue, every nation has it's own sensation
Always share some of the love that which you got
Soon and very soon, you might just know not where it's
at
In this love affair, there could be no turning back for
me
In this love affair, there could be no turning back for
me

They say love can cause two hearts to beat together
And then this love will be forever
'Cause love has never ever leave me to cry
So that's why I've got to come and testify
In this love affair, there could be no turnin' back for me
In this love affair, there could be no, aint no turnin'
back for me

They say love and life are such wonderful things that
The world needs to have
And I've got some deep inside of me
I want to tell all my friends and family
That there's no power, no principality can chain this
Feel of love I've got inside of me
In this love affair, there could be no turnin' back for me.
