Is this the start of it?
has this become a part of it?
maybe we should've slowed down
it was the taste of it
and this is how we wasted it
maybe we'll get it back somehow

it made me furious
you said that if we bury this
never could dig up the past
i couldn't handle it
i thought i could dismantle it
maybe somethings weren't meant to last

kids of the frozen front range
carry the message if i fall
tell them we're moving on
sorting out who our enemies are

i've seen it, you say i don't believe it
it's either or...

tell me it's over or everything you hoped for
tell me either way, i know you know i never let this go

you've got the upper hand
wrapped tight around my neck again
and i can't get the words out
if you were listening
you'd hear the voice or reasoning
telling you walk away from this somehow

kids of the frozen front range
carry the message if i i fall
tell them we're moving on
sorting out who our enemies are

i need this, you can't deny you feel it
it's either or...

tell me its over or everything you hoped for
tell me either way, i know you know i never let this...

tell me its over or everything you hoped for
tell me either way, i know you know i never let this go

o.k. in the first degree
there's nothing wrong with me
