We come from the west side Well they come from behind To take all your money Take hold of your mind

Well it's what you do It's not what you say You're gonna make a little bit easier To get through

You save the day and you rule the night You make a man swing from left to right

Well it's not where you're from And it's not what you wear No no You're mad, they say you're mad, but you're special Oh and they say it's not fair

Well it's what you do It's not what you say You're gonna make a little bit easier To get through

Where are you from, can you take me there? To the beast of the forest, it's safe for you there

You save the day and you rule the night You make a man swing from left to right

Well it's what you do It's not what you say You're gonna make a little bit easier You're gonna make a little bit easier

Well it's what you do It's not what you say You're gonna make a little bit easier To get through To get through

And it's not what you do x2
