You got my number, why don't you use it
You know my name, you won't abuse it, abuse it
If you wanna wanna wanna wanna wanna have
someone to talk to, call me up.
(you got my number)

I'll pick you up, in my car
Take you home, it's not far, far
If you wanna wanna wanna wanna wanna have
someone to talk to
If you wanna wanna wanna wanna wanna have
someone to talk to, call me up.

Why don't you call my number
Why don't you call my number
Why don't you call my number...now

You know my number, why don't you use it
You know my name, you won't abuse it

You know my number, why don't you use it.
