No I don't intend to stop you  
If you're gonna leave this town  
Sure you know I got your letter  
I still look at it and frown

Woman, evil woman

You can even take my money  
And my good old V8 Ford  
It's still good enough to let you  
Take a trip around the world

Woman, evil woman

\* Guitar Break \*

Woman, evil woman

Don't want no longer to discuss it  
Country road awaits you, dear  
You can have my gun in order  
To get rid of all your fear

Woman, evil woman
