When I see you darling
Walking down the sidewalk
Blood is cooking in my vein
Crazy 'bout the way
You're walking and you're talking
Just about to go insane

Listen pretty baby
Please don't tell me maybe
Don't you know there's only you who makes me glad

/Guitar Break/

Leaning on the lamp post
Just around the corner
Waiting for you're coming by
Really tired of waiting
You may be delating
Just about to start to cry

Listen pretty baby
Please don't tell me maybe
Don't you know there's only you who makes me glad
