

Meestro "Crowded Room"

Visit "[Crowded Room](#)" on MotoLyrics.com

You know the door is always open
and the people, they just stroll on by
Come on in, tell me how you've been my friend
Are you happy with your life tonight?

You know my mind loves a crowded room
but my heart lives all alone

You can stay for a while if you need to
or be on your merry way at will
I don't care what you do when I'm away from you
Everybody's gotta get their fill

You know my mind loves a crowded room
but my heart lives all alone
I don't foresee a change in the weather
I don't know which way to turn
So I prefer we sit here together,
all alone, and watch the candles burn

Comfort is a favorite love song
and with love comes a happy mind
Why don't we fill this room, for the people all soon
must get back to their busy lives

You know my mind loves a crowded room
but my heart lives all alone
