Great conversation
Smother it on me
Journey my soul over town

You seem like a write-off
Compromising
Going for mind over mind

Take all of my heartache
And salt to rub on it
Getting up closer tonight

If you dream of tomorrow
Pass me another
It can wait 'til some other time

Do you chang-chang-chang, change to full throttle?
Or do you fling fling fling, fling it a bottle?
Ooh, lover, come hover
I lie, open, done hopin'

Make me shiver
Go down to it
Make a hell of a morning
Bring me some gold from the vine

Stuck like the starlight
You pick your own fight baby
Laughing while both of us drown

And your secrets chained, secrets chained to you
Cause me pain when you move my way

Hey, liar, called desire
How high can you syphon my typhoon?

And the different name that drove you to violence
Burn it up
Wanna see you coming home in my life
And the different sound that fell into silence
Turn it up

Wanna see you coming home in my life

In my dreams I've been a stranger
Don't know why I wanna go inside her
In my dreams I've been a stranger
I've been on fire to go inside her

Make me shiver
Go down to it
Make me shiver
Go down to it
You and your heartstrings
In a secret apartment, playing your heartstrings
