

Meeting of Important People "I Know Every Street"

Visit "[I Know Every Street](#)" on MotoLyrics.com

all alone in the company john
all alone, but i won't be for long
on a long way
she's about to touch down
i know every street in this town
every street in this town

if she's hiding
she'll be coming up burned
it's been a long way
since i made a bad turn
i'm a soothsayer
and i can't be too proud
i know every street in this town
every street in this town

you don't need lots of money
you won't hurt anybody

i know every street in this town
i love every scene in this town
i lead every beat in this town
i know every street in this town
