I'm goin down to the OK Corral  
I'm gonna ride a painted pony  
I'll put a saddle on it's back  
Ride out of this here town  
Ain't never lookin back

That's the way, the way of the west  
That's the way that we like best  
That's the way, the way of the west  
That's the way that we like best

There's many miles and miles I've roamed  
I still ain't found a place that I can call my home  
You know a cowboy's work is never done  
So drink that whiskey boys  
There ain't no time for havin fun

That's the way, the way of the west  
That's the way that we like best  
That's the way, the way of the west  
That's the way that we like best

There comes a time in every man's life  
He has to settle down and find himself a wife  
You know I don't believe that I can live that life  
No woman can ever take away my fun, my Saturday  
night fight

That's the way, the way of the west  
That's the way that we like best  
That's the way, the way of the west  
That's the way that we like best

The way of the west
