"Let's Celebrate"

I know that day is bound to come
When we're gonna reach that number one
And when that day has come around
Nothing in this world can hold us down

(We're gonna be)
Sitting on top of the world
With the sky on our shoulders
Sitting on top of the world
Way up high looking over
Sitting on top of the world
And this I truly believe

Ore dreams is just a touch away
And we're getting closer everyday
Bring out the wine, let's celebrate
Someone makes a toast to better days
They're on the way
