College girls have fun in the sun
'Til February comes
Ooh it won't be long

'Til they're headed home lovestruck and alone
Just staring at the road
Summer can't be late
Will freshman lovers wait

First day waking without her love
Can't wait to tell everyone about
Blue eyes, and how he rides the waves
And waves
Woah oh oh oh

College girls have fun with their friends
On nights that never end
Ooh it won't be long

'Til summer's gone september is on
And anxious lovers wait
Until the first glance
To fall in love again

First day waking without her love
Can't wait to tell everyone about
Blue eyes, and how he rides the waves
And waves

College girls have fun in the sun
'Til February comes
Ooh it won't be long
'Til they're headed home
Ooh it won't be long

College girls have fun in the sun
'Til February comes

College girls
