Let's fall in love so we both feel younger again
Let's go to all of the places that we've never
been
Never been

I hope we will find a stolen place in time
I hope we will find it again and again
And again, and again

I don't know if I will ever be who I was then
I'll know how it feels when I feel that old feeling
again
And again

The skies have been grey so I look the other way
The sun will be back anyday, anyday
Anyday, anyday

Let's fall in love so we both feel younger again
Let's go to all of the places that we've never
been
Never been

I hope we will find a stolen place in time
I hope we will find it again and again
And again, and again
And again, and again
