Everybody needs a song
To keep them dancing all night long
So they slip or they slide and they go for a ride
And they leave on the line yeah

Everybody knows the way
From San Francisco to L.A.
So they hitch or they drive or they go for a ride
And they reach for the night

Everyone is having fun and everything's alright
Everyone is having fun and everything's alright

So they slip and they slide and they go for a ride
And they leave on the line

Everyone is having fun and everything's alright
Everyone is having fun and everything's alright
