Finally made contact  
She touched my soul and I  
Felt the full impact  
And the night stood still

Then I kissed her eyes with mine  
As she knelt before me  
Poured the wine  
And told me her story  
We lit a fire and watched it grow higher

Sunshine girl, wont you stay with me  
Sunshine girl, wont you stay with me  
Sunshine girl, wont you stay with me every night  
It's so perfect

Magic all around, like I never felt before  
And the only sound was the cracklin fire

Then all at once the day was melting the night-time  
Shades of dawn burst into sunshine  
I took her hand and ran through the mornin

Sunshine girl, wont you stay with me  
Sunshine girl, wont you stay with me  
Sunshine girl, wont you stay with me every night  
It's so perfect

We watched the day melting the night-time  
Shades of dawn burst into sunshine  
I took her hand and ran through the morning

Sunshine girl, wont you stay with me  
Sunshine girl, wont you stay with me  
Sunshine girl, Sunshine girl, Sunshine girl, Sunshine  
girl  
Sunshine girl, Sunshine girl, Sunshine girl, Sunshine  
girl  
Sunshine girl, Sunshine girl
