I hold back, no more cries  
I dig your hole under moonlight  
So much fear in these eyes  
I'll never forget that sight

Turn of my life, burying my bride  
Madness filled my brain  
Obsession to settle the score

Turn of my life, hunting their vice  
Madness wash my stains  
With all blood that I make flow

Ever since, a wandering beast  
No mercy, I've lost my sight  
Have I become so blind ?

Ever since, a cold murderer  
Cruelty has become my guide  
Have I become so blind ?

Forgiveness in no wise  
Hate and tears remain inside

Turn of my life, burying my bride  
Madness filled my brain  
Obsession to settle the score

Ever since, a wandering beast  
No mercy, I've lost my sight  
Have I become so blind ?

Ever since, a cold murderer  
Cruelty has become my guide  
Have I become so blind ?
