I wrote a song for you  
You sang it back to me  
Word for word, like a bird  
In the spring

I shut my windows  
Cause it's too much  
I can feel your touch, upon my skin  
I let you in

Keep in touch because  
It makes our goodbyes less abrupt  
And our memories less like dreams

You send me lines  
From time to time  
From where you are, near and far  
Away from me

It's Willie Nelson  
And stormy nights  
And that dress you like, sunglasses, too  
I wore for you

We keep in touch because  
It makes our goodbyes less abrupt  
And our memories less like dreams

You say my daddy  
Would be so mad  
Cause you make me sad, but I choose blue  
I choose you

Keep in touch because  
It makes our goodbyes less abrupt  
And our memories less like dreams

You keep in touch because  
It makes our goodbyes less abrupt  
And our memories less like dreams
