I'm lonely and abandoned
Washed up, left for dead
I'm lost inside the desert
Of ever word you said

Like a nuclear reactor
Or T.N.T.
I'm thinking about the times
When you lied to me

All the innuendo
Caught up on your hook
I was just a name
In your little black book, oh
In your little black book, oh

I'll get even with you
I'll get even with you, even with you

I'm bitter and I'm twisted
I haven't slept in days
I'm lonely and I'm angry
I can't make it go away

I'm like a bomb that's ticking
I got voices in my head
I got a doll with needles in
Wishing you were dead

I'll get you back somehow
That's what I'm gonna do
I'll get you back somehow
Your nightmare coming true
It's coming true

I'll get even with you
Ah, that's what I'm gonna do
Gonna get even with you
Ah, get even with you, even with you
Even with you

You better look behind you

'Cause there I'm gonna be
I'll be standing in the shadows
With who I used to be

He's slightly schizophrenic
Me and me and me and me agree
That you are gonna pay
For what you did to me

I'll get even with you
I'll get even with you
I'll get even with you
Gonna get even with you
Ah, that's what I'm gonna do
Gonna, I'm gonna, I'm gonna, gonna

I'll get even with you, even with you
Ah, that's what I'm gonna do
Gonna, I'm gonna, gonna, gonna, gonna
I'll get even with you
I'm gonna get even with you
Ah
