"Loved to Deth" by Megadeth

Your body's empty now
as I hold you
now yo're gone I miss you
but I told you
I remember bad times
more than good
there's no coming back
even if we could

I loved you to deth

If I can't have you
then no one will
and since I won't
I'll have to kill
My only love, something
now you've gone to heaven
and I'll burn in hell

I loved you to deth

And now I'm down below
and what do I see?
You didn't go to heaven
you're down in hell with me
and now you're coming back
"baby, take me, please!"
I really think I would
if you weren't such a sleaze
I loved you once before
you kept me on a string
I'd rather go without
than take what you would bring

I loved you to deth
