Intro/Verse 1:

His evil fight that's warned for disaster,
To dominated kill.
Listen to me, burning machine.
Falls majesty, standing perfectly still
It's raining, raining down evil.
What a vision of black eyes.
Like a good old fashioned beating within,
Isn't that your life?

Chorus 1:

All alone
And left dependant
With ascendance
You're blended
Nor your age
You're swelling? Nor
Your passion life flashes before you
Even still, you keep on fighting
Through the thunder and the lightning
And our heavy census flow
Your sudden death from above.

Verse 2:

You're suppose to be like a prisoner to break
While tied up high, leather spear.
Escape quickly, and go get help
The creeping man nothing but despair
The beast is just tactically programmed

Time to destroy types of overtook
To free the end of our war
To free the end of the year!

Verse 3:

Stoping at nothing,
From the blood that he's tasted
Tearing your soul apart
That when get up your pain will be wasted
Now death stares upon you
Like a bloody white dove
Bring in your retribution

Your sudden death from above.

Outro/Chorus 2:

All alone

And left dependant

With ascendance

You're blended

Or your age

You're swelling more

Your passion life flashes before you

Even still, you keep on fighting

Through the thunder and the lightning

And our heavy census flow

Your sudden death from above.
