It's just another day
It was just another fight
It was words strung into sentences
It was doomed to not be right

There is something wrong with me
There is something wrong with you
And there is nothing left of us
And there is one thing I can do

Lying on your bed
Examining my head
This is the part of me that hates
Paybacks are a bitch
I throw the switch
Somewhere an electric chair awaits
Hey, this was my life
Hey, this was my fate

This was the wrong thing to do
This was the wrong one to be doing
This was the road to destiny

And this was the road to my ruin

Now there's motives for the suspects
Now there's nothing left to say
And now there's method to the madness
And now there's society to pay

Lying on your bed
Examining my head
This is the part of me that hates
Paybacks are a bitch
I throw the switch
Somewhere an electric chair awaits
Hey, this was my life
Hey, this was my fate

In our life there's if
In our beliefs there's lie
In our business there's sin

In our bodies there's die

This was my life
This was my fate
This was my life
This was my fate
