

The Killer And The Star "My Heart"

She came in like the wind
And took me over.
A southern kinda day
A wicked sun

I fell into her will
I'm on the floor now
And every time she sang
I come undone.

It's my heart... heart
It's my heart... heart

The memories will fade
Like ghosts of summer
The way she made me feel
Can't sleep alone

Then I saw her face
The sun froze over
And every time she sang
I come undone

It's my heart... heart
It's my heart... heart

Can you give love
Can you give love
Can you give love

Can you give love
Can you give love
Can you give love
